

## **PAY MONTHLY CONTENT ADD-ONS FOR PLANS AT £41+**

### **All add-ons**

Pay monthly plans at £41 or more a month include one add-on. Within 24 hours of joining, you'll get a text message inviting you to click on a link. This link will take you through to a mobile page where you can select the inclusive add-on you want. You'll be re-directed to an app store to download your selected service or if the service is not an app, then you'll be linked directly through to the mobile service (data usage will decrement from your data allowance). After you've had the add-on for 30 days you can change it for one of the other add-ons on offer. You can do this all through the EE mobile homepage.

You'll need a compatible device (the iPhone 5 and Nokia Lumia 920 and 820 are not compatible with the Games add-on) and an internet connection (where applicable). Remember, you may need to browse the internet to download or use the add-ons, so usage will decrement your data allowance. Use is also subject to coverage, our network management policies and the fair use policies for WiFi set out in your pay monthly price plan terms and conditions. Third parties provide these multimedia products and we can't promise they will always be available or that they will work perfectly. Remember these third parties own the content of these products and we are not responsible for what you see. You may be asked to accept software updates at any time, and you must download these updates to keep getting the most up to-date functionality. Multimedia products are for UK use only. Any data use outside the UK will decrement any roaming data allowance you have.

**Games** You'll get 2 games each month to keep from the Gameloft catalogue of games. You'll be notified when there are game updates available for download (data usage will decrement from your data allowance). The iPhone 5 and Nokia Lumia 920 and 820 are not compatible with the Games add-on.

**Music (Deezer Mobile)** You have access to 18 million music tracks to stream or listen to offline through the Deezer app on your phone (data usage will decrement your data allowance). Before you start you'll need to create a Deezer account. Just remember, you can't transfer or copy any tracks from your mobile to a different device or recording media and if you remove this service, any tracks stored to your mobile will be deleted. Deezer's music catalogue may be subject to change for reasons beyond its control and Deezer may use cookies to deliver their music streaming services to you. If you have purchased Deezer Premium+ you will have access to the premium service for the remainder of your subscription period. Remember if you change your content add-on during the monthly subscription period you will lose access to Deezer Premium+ and the fee you paid is non-refundable. For more information on this and the other terms that apply, see [www.deezer.com](http://www.deezer.com).

**Mobile TV** You can watch selected TV channels live on the go via your mobile phone. You cannot pause, stop, rewind or fast forward the TV and content from the TV cannot be stored on any device. All usage will decrement the data allowance from your pay monthly plan. You must be covered by a current valid colour TV Licence in order to access all channels comprised within the Mobile TV add-on.
